Tutoring Experience

For the past 14 years, I've guided students through chemistry curriculums like IB, A-Level, and AP, ensuring they understand core concepts and succeed in their exams. I focus on helping students build a solid foundation in chemistry, preparing them for both school-level exams and university entrance tests.

Additionally, I've supported students in mastering advanced topics like organic chemistry and thermodynamics. Many of my students have gone on to pursue chemistry and related fields at top universities, reflecting the lasting impact of my teaching.
