🎓 Experienced Tutor | Harvard University | PhD in Chemistry

I earned my PhD in Chemistry from Harvard University and a BSc in Chemistry from Stanford University. With 17 years of tutoring experience, I specialise in IB, AP, and A-Level Chemistry, helping students in the US and internationally excel in their exams with my passion for the subject.

Teaches: IB Chemistry A-Level Chemistry IGCSE Chemistry GCSE Chemistry

AP Chemistry

Curriculum: IB A-Level GCSE IGCSE AP

Qualifications

Harvard University: PhD in Chemistry (2004–2008)

Stanford University: BSc in Chemistry (2000–2004)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

Over the past 17 years, I've had the opportunity to work with students from diverse backgrounds, including IB, A-Level, AP, and IGCSE curricula. I've guided students through challenging topics like organic chemistry, thermodynamics, and analytical chemistry, helping them excel in their academic careers.

Throughout my teaching career, I've worked with high school and undergraduate students, ensuring they not only understand the core concepts but also apply them practically. This has allowed my students to excel in their exams, and many have gone on to pursue degrees in science-related fields.

In addition to my work with younger students, I've also taught advanced chemistry topics to university students, preparing them for competitive exams and research projects. My comprehensive approach ensures that students build a solid foundation in chemistry, which serves them well in higher education.
