Tutoring Experience

For the past 15 years, I have been tutoring students in physics, specialising in IB and A-Level curricula. My students have consistently performed well in their exams, often achieving top grades and gaining acceptance into prestigious universities. My extensive knowledge in physics allows me to break down complex topics into manageable parts, making them easier for students to grasp.

In addition to IB Physics, I have worked with students preparing for AP and GCSE Physics, providing tailored support based on each student's needs. Whether through personalised one-on-one sessions or group tutoring, I aim to ensure that my students develop the skills and confidence needed to succeed in their academic journeys.
